Good day, Mrs. Maimona M. Asum

I am writing to apply for the position of Computer Studies Faculty in College of Information Technology, as advertised on your department website. I am B.S. in Computer Science graduate of Mindanao State University- Main Campus, and I graduated Valedictorian of the batch 2019-2020. I am extremely interested in obtaining a faculty position at the Mindanao State University-Main Campus, where I can contribute to its focus on computer science education, continue my research in software engineer, and lead campus and professional service activities.

In addition to my dissertation research, other areas that interest me for my future research stem from my goal of developing improved analytical models and methods for design, evaluation, and upgrade of concrete structures subjected to monotonic and reversed loading and structures equipped with passive systems. I gained substantial experience identifying and fixing bugs, as well as coding Java, Python, and Swift- all skills I'm confident would be useful at Mindanao State University where i can share to my students.

During my graduate training, I was also fortunate enough to have served as a teaching assistant and occasionally substitute lecturer for an intermediate level course on B.S. Computer Science. I found that my professional experience as an software engineer provided me with a broad view that is useful in assisting students with projects and assignments. These experiences have built my confidence and an interest in teaching and I look forward to the opportunity to not only teach existing courses, but also work to develop new ones.

I would enjoy discussing this position with you in the weeks to come. In the meantime, I am enclosing my curriculum vitae and statements of teaching and research interests. Letters of recommendation will arrive under separate cover. If you require any additional materials or information, I am happy to supply it. Thank you very much for your consideration.

Yours truly,

ALYASA S. SUMO
